**Aims and Scope.** The *International Journal of Construction Education and Research* is the official journal of the Associated Schools of Construction. The goal of the journal is to recognize scholarly work by preserving and disseminating research articles that contribute to the understanding of issues and topics associated with construction education and the construction industry. The *IJCER* aims to attract not only manuscripts dealing with construction education and pedagogy, but also to publish high-quality research manuscripts addressing a wider range of topics related to the construction industry. The *IJCER* will include abstracts of articles, an editorial section, point-counterpoint invited papers, blind peer-reviewed papers, case studies, and book reviews. Originally launched in 1996 as the *Journal of Construction Education*, the *IJCER* was re-launched under its present title in 2004, and is introducing this new print version with Volume 2, 2006.
